DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Phouphanomketh Ditthavong on September 23, 2005.

The application has been amended as follows:

In The Claims

Claim 22, in line 15, replace "step up message" with - -setup message- -.

Claim 27, in line 16, replace "step up message" with - -setup message- -.

Claim 28, in line 3, replace "a trunk group" with - -the trunk group- -.

Allowable Subject Matter

2. Claims 1-18, 20-23, 25-30, and 32-35 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest wherein a nature of address indicator is determined in the telephony signaling, and the address information pertaining to the calling party is formatted based on a state of the nature of the address indicator, the formatted address information being provided in an address specification parameter in a call setup message, as specified in independent claims 1, 7, 13, 22, and 27.

Application/Control Number: 10/800,394

Art Unit: 2667

The prior art does not teach or fairly suggest determining a state of a screening indicator associated with the telephony signaling and responsive to said state, providing a value of a screening parameter in the call setup message, as specified in independent claims 20 and 25.

The prior art does not teach or fairly suggest determining a state of a presentation indicator associated with the telephony signaling and responsive to said state, providing a value of a privacy parameter in the call setup message, as specified in independent claims 21 and 26.

The prior art does not teach or fairly suggest setting a privacy indicator in the second signaling message responsive to the value of a screening indicator in the first signaling protocol, as specified in independent claim 29.

The prior art does not teach or fairly suggest determining whether the first signaling message includes a screening parameter indicating that the calling party number is to be conveyed to the telephony system; obtaining a configuration value indicating whether the calling party number is to be conveyed to the telephony system; and selectively conveying the calling party number responsive to at least one of the configuration value or whether the first signaling message includes the screening parameter indicating that the calling party number is to be conveyed to the telephony system, as specified in independent claim 30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
